RE: Draft Bay TMDL
Docket ID # EPA-R03-OW-2010-0736

To whom it may concern,

I urge the EPA not to move ahead with costly mandates.

Federal actions must be based on accurate information. No additional regulations or penalties should be put on states or industries, especially prior to appropriate science and data.

I question the "the reasonable assurance" offered by EPA's backstops. Instead of forcing states to regulate their way out of "backstops," I urge EPA to allow Virginia to implement its own plans for achieving clean water goals – without costly, burdensome regulations.

Thank you for your cooperation,

Veronica Rollins
